## INSTRUCTIONS (IPHONE)

Apple

Adding your medical ID and emergency contacts on your iPhone device can save precious minutes during a crisis. Follow these instructions to add important information on your iPhone for easy access when you need it most.

1. Open the Health App
2. Click Your Profile Icon in the top right corner.
3. Click Medical ID — **Medical ID**
4. Fill out key information for medical providers, including Medications, Allergies, Emergency Contacts, and Conditions.
5. Under Edit Additional Information you can also add your Blood Type, Height, and Weight.

Help Emergency Medical Teams and hospital staff make safe, informed decisions faster.

## EMERGENCY ACCESS

At the top of your Medical ID, you should have two questions to consider, whether to allow this ID to be available when your phone is locked and whether it should be shared during emergency calls. Click the slider to the right to enable these options.

Show When Locked

Share During Emergency Call
